

Springfield Public Schools

Our commitment:

To help every student be fully prepared to achieve success after graduation—ready for college, a career or whatever comes next.

Strong Academics | Teamwork | Opportunities

Every Student a Graduate Prepared for a Bright and Successful Future

SUCCESS

Strong academic foundations

Student success drives everything we do.

Every decision we make comes down to what is best for students. Our goals are ambitious, yet our vision is clear: We will do everything we can to see that every student graduates with a clear path for success. We strive to engage our nearly 11,000 students in learning and growing.

Students learn in a **technology-rich environment**, embracing **STEAM** concepts (science, technology, engineering, art and math) and **project-based learning** strategies that teach valuable problem-solving skills to prepare them for **21st-century jobs**.

Strong Schools

Students begin their experience with Springfield Public Schools with a robust **full-day kindergarten** program.

Elementary schools focus on building strong academics foundations, using interventions as needed to build a strong foundation of **reading and math** skills and help each child to find success.

Middle schools continue to build skills, layering in independence, curiosity and **opportunities to explore** the possibilities their futures hold.

High schools focus on preparation for **graduation** and career success in the world beyond.

When we say "success," we mean success for **all kids**, no matter what their background is and no matter what their career and college goals are.

50 classes! Did you know that Springfield has more professional/technical programs than most schools in the state?

SUCCESS

Opportunities

In Springfield Public Schools, we believe strongly in developing well-rounded students.

Using engagement as a strategy for success, we're always looking for ways to give students even more opportunities to learn and grow beyond the traditional classroom.

That's why we work to integrate **music and art** opportunities into every school, and offer a wide variety of **clubs and athletics** for every student to be able to explore and develop their interests.

SUCCESS

Teamwork

Our collaborative decision-making process aligns teachers, staff, administrators and parents with common goals that create a strong **sense of community** in each school.

Teachers and staff work together to share information, knowledge and resources to help each child be successful.

SUCCESS

The power of partnership

Incredible community relationships and collaboration provide grant funding and a network of wrap-around services for our students, including:

- Gift of Literacy
- Middle school sports
- Arts apprenticeships
- Career exploration
- Student mentoring
- Library programs
- Before- and after-school care
- Vision testing
- Science camps
- Outdoor classrooms
- Volunteers
