The Community Transition Program (CTP) is a program for students who experience mild to moderate disabilities ages 18-21 who typically have completed high school with either a modified diploma or a certificate of completion and thus still are eligible for special education transition services through the school year they turn 21. In this program we focus on serving students in the four domains of Transition: Work, Independent Living, Post-Secondary Education, and Community Inclusion. We do this through a variety of hands-on, community-based activities, including work experience, shopping, cooking, swimming, community service projects, academic classes, workout routines, social skill development, gardening, recreation, and many more.

CTP was established in the Springfield School District in 1990. CTP staff provide transition services to youth ages 18-21 on Individualized Education Plans (IEPs). These services cover the four main domains of transition: Work, Independent Living, Post-Secondary Education and Community Inclusion.
